New Chill-Out Zone in the Library

Looking for a quiet place to study or relax? Got some free time between seminars? Is the hustle and bustle of the “Burrow” in the monastery building too much for you? Looking for a place for focused teamwork?

If you answered yes, stop by the ŠAVŠ Library. We have prepared a new chill-out zone for you, where you can study, relax or work in a team in the quiet of the library. The silence so typical of libraries is on your side 😊.

Citation Cheat Sheet (Not Only) for Students and Educators

The semester is in full swing, which is why Citace.com has prepared a **citation cheat sheet** for students (and not only for them). It is a short document that gives readers a quick overview of citing and citation ethics. The material is shared under a CC BY-SA licence in both PDF and Word formats, so you can reuse or adapt it for your own students.
